Art Unit: 1724

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 25, 27, 29, 34 and 38-44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. Claims 25, 27, 29, 34 and 38-44 are deemed to be incomplete because it appears that a "sealed but openable flow path" is also required between the third and fourth containers, in order to allow for the fluid to pass to this final storage container of the processing set. Applicant is advised that an amendment inserting the limitations of claim 27 into parent claim 25, adding the further limitation that the flow path is sealed, and canceling claim 27 would overcome this portion of the rejection. Also, claim 29 is deemed to be misdescriptive because the adsorbent material appears to be located in the third container (see line 21 of claim 25), not in the "second" container, as recited in lines 3-4 of claim 29. Applicant is advised that an amendment changing "second" to --- third --- in line 3 of claim 29 would overcome this portion of the rejection.

Claims 25, 29, 34 and 38-44 would be allowed if rewritten or amended to overcome the above rejection under 35 U.S.C. § 112 because it is agreed that the references of record do not teach or fairly suggest a pre-assembled fluid processing set having four attached containers of the type recited in claim 25, particularly since illuminators known in the art at the time of this invention allowed for the treatment of single containers, not ones that had other processing containers attached thereto.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1724

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
